GAGE MAY LEAVE THE CABINET

Secretary of the Treasury May Resign.

THE PRESIDENT DENIES THE STORY.

Says There Is No Foundation For the Rumors That the Chicago Man Has Quit, or Intends To Do So—Secretary Alger's Illness Such as To Alarm His Friends and the Members of His Family.

Washington, Dec. 28.—**The rumor that Secretary of the Treasury Lyman L. Gage had resigned or was about to resign, has been circulated, but the story is emphatically denied by President McKinley.**

Secretary of War Alger's illness is causing considerable alarm among his personal friends and the members of

SECRETARY ALGER.

his family. The secretary is threatened with pneumonia or congestion of the lungs.

A week ago General Alger walked to and from his office in the war department in a cold rainstorm and caught a cold, which has kept him in the house ever since. Notwithstanding his condition he has endeavored to attend to business, especially the Klondike relief project, in which he is keenly interested.

Paxson to Be Nominated.

Washington, Dec. 28.—Col. W. R. Morrison's term as interstate commerce commissioner will expire Friday at midnight. Judge Edward M. Paxson of Philadelphia will be nominated, it is said, in spite of the protest from Senator Collum and his western Republican colleagues. The nomination is not likely to go in until next week, when the senate reconvens, as the commission has no business of importance to transact in the interim.

President McKinley Invited.

Washington, Dec. 28.—Representative Prince of Illinois has extended the president an invitation to attend the annual encampment of the Union Veterans' union, to be held at Rock Island, Ill., next August. It is expected that the president will make a tour of the west about that time, visiting the Omaha exposition en route. Mr. Prince was assured that the president would be glad to attend the encampment, and would do so if official engagements would permit.

Not Wanted by the United States.

Washington, Dec. 28.—Nothing is known in official circles here of any overtures made by the United States government for the purchase of a portion of northwestern Greeland for use as a coaling and naval station, and it can be set down as an unfounded statement. Naval authorities say they have absolutely no use for a coaling station in that part of the globe.

New Rule on Pension Cases.

Washington, Dec. 28.—A new order, the enforcement of which, it is believed, will expedite the disposition of pension claims now pending, has been issued by Commissioner Evans of the pension office. It is as follows: "Hereafter claims for increase of pension will not be considered within twelve months from the last action—allowance or rejection."

Eckels to Retire Thursday.

Washington, Dec. 28.—Mr. Dawes, recently appointed comptroller of the currency, is expected to arrive here next Thursday, and to assume his new duties on January 1. Mr. Eckels, the retiring comptroller, will leave to take charge of the Commercial National bank of Chicago, as its president, next Friday morning.

Was Burned Alive by a Mob.

Memphis, Tenn., Dec. 28.—Word was received here by telephone from Glendora, Miss., that Joe Hopkins, a negro, was captured by a mob and burned alive for having murdered two plantation managers. The murders occurred Sunday, three miles from Glendora.

Bomb Bursts in Theater.

Olmutz, Moravia, Dec. 28.—A bomb made of gas piping and filled with powder was exploded in the German theater. Little damage was done, but the incident has caused great excitement among the German residents.

MAY DROP ARMOUR SUITS.

Setback for New York Authorities in Oleomargarine Cases.

Albany, Dec. 28.—The state department of agriculture, the attorney general's office and the special counsel engaged in the prosecution of the Armours of Chicago for damages amounting to $1,700,000 for violation of the dairy laws in the distribution of oleomargarine throughout the state find themselves in a predicament that seems to foreshadow failure to convict. When a recent court order was promulgated giving the state counsel the right to examine the books of the various railroad companies for evidence as to the shipments it was believed that the conviction of the Armours would be easily accomplished. It was found, however, that the same court order refuses the state a change of venue and compels the commissioner of agriculture and the state counsel to prosecute the suits, of which there are a score, in the counties in which the violation is said to have occurred. This would mean endless litigation without much prospect of result.

Some time ago the Armour people sought to make an agreement with the state authorities whereby, if the suits were dropped, they would agree to pay a certain amount and promise not to deliver any more unmarked oleomargarine in the state. The proposition has been submitted to the governor, and while he believes that the prosecution should go on if there is any chance to convict, as a lawyer he is inclined to the idea that the acceptance of the proposition will be in the end more advantageous to the state.

To Join British Pacific Fleet.

San Diego, Cal., Dec. 28.—The British cruiser Leander, accompanied by the torpedo destroyer Virigo, has arrived en route to Esquimault. The two warships left Portsmouth, England, last August, traveling at an average speed of twelve knots. The cruiser Phaeton, with the destroyer Sparrowhawk, are following the Leander and Virigo and are expected to arrive here within two weeks. The Phaeton and Leander are sister ships, and also are the Sparrowhawk and Virigo. With these vessels added to the Esquimault squadron, Great Britain will have the strongest fleet that has ever assembled in the North Pacific.

Liberal, Mo., Dec. 28.—There was a bad wreck on the Memphis road here Sunday night. Local train No. 46 broke in two on the down grade coming into town and the two sections came together in front of the station. Four persons were badly injured, two seriously. The injured are: Miss Tillie Smith of Liberal, Mrs. Shelton, Colonel Jesse Poore of Golden City, Floyd Quintard. Miss Smith is still unconscious. The conductor and one brakeman were slightly injured.

Iowa Teachers Meet Today.

Des Moines, Iowa, Dec. 28.—The forty-third annual session of the State Teachers' association convened in this city today. The attendance is the largest in the history of the organization. An effort is to be made to have a common standard adopted as a basis for admission to colleges. President Gates of Grinnell college, Dr. King of Cornell, and Professor Currier, dean of the collegiate department of the state university, are talked of in connection with the presidency.

Michigan Teachers Meet.

Lansing, Mich., Dec. 28.—Fully 1,200 teachers are here to attend the annual meeting of the Michigan State Teachers' Association, which is the largest, most important and progressive organization in the state. The School Commissioners' Association met and discussed topics of interest. It was decided that high school pupils should be given a course in arithmetic after the completion of algebra and that high school graduates were not as a rule competent to teach until after they are given special training.

Fire Loss in Detroit, Mich.

Detroit, Mich., Dec. 28.—Fire broke out at midnight Sunday in the Heinaman building on West Larned street and quickly spread to the building occupied by the Detroit Free Press Printing company. Before the flames could be subdued the Heinaman building was completely gutted and the stock of the Free Press Printing company was heavily damaged. William C. Jupp, wholesale paper dealer, and Charles L. Roehm & Co., wholesale stationers, occupied the Heinaman building. The total loss will be $75,000.

Bismarck Tortured by Gout.

Berlin, Dec. 28.—The Hamburger Nachrichten denies that Prince Bismarck's gout is better, and says he cannot walk or sleep, and is unable to read or answer his friends' letters. He is described as very irate at the statement that his health is satisfactory, and is quoted as saying: "If the gentleman who wrote that were in my place he would be able to get an idea of what a 'satisfactory condition' is."

Potters to Form One Union.

Trenton, N. J., Dec. 28.—Representatives of the Potters' National union, the National Kilnmen's, Dippers' and Sagger-Makers' association and the National Brotherhood of Operative Potters, in session here, agreed upon the amalgamation of the three associations into one, thus bringing all the operative potters into one national organization. The plan of amalgamation is yet to be decided upon.

RUSSIA NOW HOLDS A GOOD POSITION

SEIZES A STRATEGIC POINT NORTH OF PORT ARTHUR

Able To Defy the World—The Czar's Forces Now Have Control of Manchuria as Well as of Korea—French Foreign Minister Will Not Talk on the Subject.

St. Petersburg, Dec. 28.—The Russians have occupied Kin-Chau, north of Port Arthur.

Odessa, Dec. 28.—It is reported that two first-class cruisers, with a large number of extra marines, have been ordered to join the Russian squadron in Chinese waters.

CAN DEFY THE WORLD.

Important Strategic Position Has Been Occupied by Russia.

San Francisco, Cal., Dec. 28.—Eli T. Sheppard, who has recently returned from China where he held an official position, commenting upon the reported occupation of Kin-Chau by Russia, said:

"Kin-Chau is an important walled city (not an open port) at the head of the golf of Lau Tung, and it commands the mouth of the river Yaloo, where the great naval battle between Japanese and Chinese was fought, and the other important rivers which flow into the gulf.

"It is about equi-distant between the mouth of the Yaloo river and the terminus of the great wall of China. It commands the railway system recently constructed from Tien-tsin to the capital of Manchuria, and is of pre-eminent importance as a strategic position.

"The seizure shows that Russia has practically taken possession of Korea, Manchuria and the gulf of Lau Tung, and possesses a significance which will cause consternation among the diplomats of the old world. Its situation is such that its possession practically places Russia in a position to defy the world."

Hanotaux Refuses to Talk.

Paris, Dec. 28.—M. Hanotaux refused to discuss the eastern situation further than to deprecate the action of Germany in compelling Russia to take steps to improve its own interests. It is expected, however, that when the French cruisers get into Chinese waters seizures will be made, and that Britain will then be compelled to grab territory in an attempt to preserve the balance of power in the Yellow Sea.

It is conceded that the situation is more fraught with danger than at any time since the German occupation of Kiao-Chou bay.

Russian Fleet Increased.

Odessa, Dec. 28.—It is reported that two first-class cruisers, with a large number of extra marines, have been ordered to join the Russian squadron in Chinese waters.

Indiana Teachers' Meeting.

Indianapolis, Dec. 28.—The state teachers association, with its kindred associations, convened in this city today for a three days' session. The opening session will be held to-night, when the incoming president will be installed and the retiring president will deliver his address. The absorbing topic in common school teachers' circles is the proposed abandonment of the small district schools and the establishment of high schools in the central parts of townships, thus bringing all of the pupils of a township into one school. The discussions on this subject are expected to lead to a policy in the future.

To Test Corporation Laws.

St. Louis, Mo., Dec. 28.—Three important committees have been appointed by President Kingsland of the Manufacturers' association to carry out lines of work of interest and benefit not only to local but to foreign manufacturers. A move to defeat the tax upon corporations in other states is the most important work. It is believed by eminent legal talent that many of the laws are unconstitutional and in direct conflict with the United States constitution and contrary to the provisions of the interstate commerce law.

Plan for Singerly's Creditors.

Philadelphia, Pa., Dec. 28.—The conferees appointed to formulate a plan of settlement of the affairs of William M. Singerly recommended that stock in the Philadelphia Record be issued and paid to the creditors to the amounts of their indebtedness. Mr. Singerly is to be left in charge of the Record, and he is to be given six years in which to pay off these bonds. According to the statement the Philadelphia Record for the last seven years has shown a net earning of $243,000 a year.

Chicago, Dec. 28.—Mrs. Mary Anderson committed suicide yesterday morning by asphyxiation in her home at 61 Johnson avenue and also suffocated her two young stepchildren. She is supposed to have been suffering from nervous dementia at the time, as she left no letter of explanation. Her husband and friends say she has been ill several months, but they never suspected her ailment would affect her mind seriously.

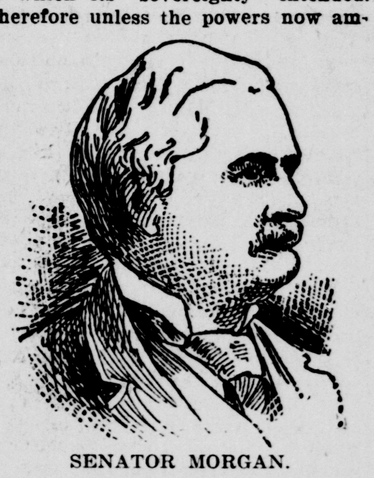
SAY OUR INTERESTS ARE THREATENED

AMERICAN TRADE IS IN GRAVE TROUBLE IN CHINA.

Views of Senator Morgan—Alabama Statesman Shows How the Dismemberment of the Empire Is Bound to Affect Treaties Now Existing—We Must Act at Once

New York, Dec. 28.—According to a Washington correspondent of the Herald, Senator Morgan of Alabama, of the committee on foreign relations, said tonight that it would be impossible for the United States to remain complacent, should European nations undertake the dismemberment of China. Senator Morgan said:

"If partition involves the abrogation of treaties this country would be left to make terms again with each European nation separately in the territory to which its sovereignty extended. Therefore unless the powers now am-



SENATOR MORGAN.

bitious for territorial extension take into account the importance of American commercial relations with China, it will be necessary for the government to intervene in self-defense.

"If the cession is absolute, then American interests must be taken care of through the treaties between America and the countries to which the absolute cessions are made respectively. If the territory is given up merely for a time, there will be a mixed responsibility, and it is a good time for intervention and the exercise of American diplomacy.

"The German occupation of a part of China and the prospective occupation of other parts by various European nations is an effort to complete a cordon of offense to American commerce from Vladivostok to Marseilles or to Liverpool.

"That cordon is being stretched to contract the trade of 600,000,000 of people who have direct trade and intercourse with the Pacific ocean.

"There is a great deal in the Chinese problem that vitally interests Americans and which seems to demand immediate consideration from the state department and congress."

Burt to Be President

New York, Dec. 28.—It is officially announced that Horace G. Burt, third vice president of the Chicago and Northwestern Railroad Company, has been selected for the presidency of the Union Pacific Railway Company. Mr. Burt's election as president is expected to carry into effect the policy determined upon by the reorganization committee when it was supposed that Mr. Clark would be able to continue in the management of the property, but which is impossible, owing to Mr. Clark's ill health.

A Use for Postal Savings Banks.

New York, Dec. 28.—General Roy Stone, acting president of the National League for Good Roads, believes he has found a way to make postal savings banks and good roads promote each other. His plan is that postal savings banks shall be established, and that the postoffice department shall invest the deposits in county bonds for the building of good roads. The League of American Wheelmen favors the scheme.

Rivera Reaches Cadiz.

Madrid, Dec. 28.—The insurgent chief Rivera has arrived at Cadiz from Cuba. He will be incarcerated in a fortress. In the course of an interview Rivera said he believed nothing would induce the Cubans to cease fighting before they obtained their independence. He justified the killing of Lieutenant Colonel Ruiz, the Spanish peace emissary, as a means of arriving at this end.

Notable Orators Engaged.

Chicago, Dec. 28.—William Jennings Bryan and Senator J. K. Jones are announced as the principal speakers at the second annual banquet of the Bryan Free Silver league Jan. 8. Other orators announced are Thomas R. Cobb of Atlanta, Ga., and Mayor W. G. Maybury of Detroit, Mich.

Carlists Lack the Cash.

Madrid, Dec. 28.—All danger of a Carlist uprising is over. That which is most indispensable in such cases, plenty of cash, is sadly lacking, and it is this deficiency of the sinews of war that compels Don Carlos and his followers to give up their present hopes.

Walcott and Tracy Draw.

Chicago, Dec. 28.—"Joe" Walcott and "Tom" Tracey, welter weight boxers, sparred six rounds at the winter circus building last night. Referee George Siler called it a draw. The contest was the hardest seen here this season.

REPUBLICANS MEET.

Indiana State Conference in Session at Indianapolis.

Indianapolis, Ind., Dec. 28.—Republican politicians from every section of the state are here in attendance on the state conference of the party. The only formal business to be transacted in connection with the meeting is the issuing of a call by the state committee for the reorganization meetings in counties and districts next month. The party leaders decided that it would be unwise for the conference to put forth any declaration on the money question, the Hawaiian question, the president's policy with reference to Cuba or the civil service question.

The three candidates for United States senator—Robert S. Taylor, Gen. Lew Wallace and J. Frank Hanley—are here. Charles F. Coffin of this city announces that he is a candidate for the Republican nomination for secretary of state. He is the only candidate for the office so far. Senator Fairbanks and all the Republican congressmen from the state are here.

CANADA'S WILL RULES.

Great Britain Defers to Her Wish to Continue Seal Slaughter.

London, Dec. 28.—Lord Salisbury has written to United States Ambassador Hay, in response to America's latest proposal in the Behring sea controversy, that Great Britain enter into an agreement with the United States, Russia and Japan to stop pelagic sealing.

Great Britain declines to enter into such an agreement. Lord Salisbury says in substance that he has communicated with the Canadian government, which has the foremost interest in the sealing question, and that Canada is unwilling to become a party to such an arrangement as is proposed by the United States. Therefore Great Britain, continues Lord Salisbury, whose interest is but slight, would not be justified in acceding to the proposals.

Lord Salisbury's answer emphasizes the policy of Great Brittain not to interfere in Canada's foreign relations.

Rejected by the Engineers.

London, Dec. 28.—The ballot taken by the striking engineers as the outcome of the recent conference between the representatives of the employers and the men has resulted in a rejection of the proposed compromise by 100 to 1, while the trades union's proposal of fifty-one hours weekly, instead of forty-eight, has been rejected by a majority almost as large. The ballot therefore is practically tantamount to a vote of no confidence in the leaders of the men. It is understood that the conference will not be resumed. The lockout will now commence, though it is reported that several firms intend to open their shops to men willing to work on the employers' terms.

Bad Failure at Indianapolis.

Indianapolis, Ind., Dec. 28.—The Krag-Reynolds company, wholesale grocers at 31 and 33 East Maryland street, made an assignment Monday to Edward L. McKee of the Indiana National Bank. The assignee said, after a hasty examination of the company's accounts, that it was hopelessly insolvent. The liabilities are fixed at $350,000 and the assets will reach $400,000. The cause of the failure, it is stated, was the effort of the company to do a large business on limited capital.

Novak May Not Get Bonds.

Cedar Rapids, Iowa, Dec. 28.—It now looks as if Frank Novak, convicted of the murder of Edward Murray, would not secure the $18,000 bonds in which he was held pending appeal to the Supreme court.

Judge Burnham has made an order allowing relatives to take the skull of Murray introduced in evidence in the recent trial and inter it with the rest of the remains in the little cemetery at Norway.

McCoy Challenges Fitz.

New York, Dec. 28.—"Kid" McCoy, the conqueror of Creedon, has issued a challenge to Fitzsimmons for a finish fight for the middle-weight championship of the world. Tariff War Not Likely.

MEN ARE WORKING FOR A COMPROMISE

FALL RIVER OPERATIVES UNABLE TO AGREE.

Manufacturers Are Firm—Propositions Made by the Men Are Rejected—Committee To Meet Again Miners Decide To Hold a Conference at Chicago.

Fall River, Mass., Dec. 28.—The latest proposition of the operatives and the answer of the manufacturers have again left matters in this city in rather an uncertain condition, although by many the outcome anticipated is an acceptance of the reduction by the operatives, at least for the present. The proposition is understood to be a compromise between two factions in the conference committee, one favoring an immediate strike and the other postponement of all action until March. It differs from what the manufacturers, when they first heard of it, expected, and is a request that the reduction be halved—that is, 5½ per cent until March 1, when another conference is suggested to consider the questions prevailing at that time. The answer of the manufacturers is a rejection of the proposition, so that there is nothing for the operatives to do but accept or oppose this reduction. The conference committee will meet again.

Miners Will Meet at Chicago.

Columbus, Ohio, Dec. 28.—The executive committee of the United Mine Workers of America and coal operators from Pennsylvania, Ohio, Indiana and Illinois met Monday to adjust wages, to stand until an interstate convention of miners and operators can be held. Virginia was not represented. It was decided to hold a joint conference in Chicago Jan. 17, following the national miners' convention in this city. The miners will decide at their national convention upon the demands to be made at the joint conference. An advance of probably not less than 10 cents a ton in the price of mining will be asked.

ANGLO-JAPANESE AGREEMENT.

Belief That Great Britain's Policy Will Be Vigorous.

London, Dec. 28.—Although no official news has been received here of the reported action of the British fleet in Corea, it is thought extremely probable that some vigorous step may have been taken to restore the Englishman, McLeavy Brown, who was evicted by the Russians from post adviser to the Corean customs.

Every one here is expecting the announcement of a great coup on the part of Great Britain, who, while lying low in the early stages of affairs of this kind, usually manages to come out on top at the end. There is not the least doubt that some sort of an Anglo-Japanese understanding exists and that in case of need the joint fleets would be ready to act together, in which event they would easily sweep any rivals off the seas. Public opinion is all in favor of a close agreement with Japan against Russia and Germany.

Gather at Springfield.

Springfield, Ill., Dec. 28.—The city is filled with teachers in attendance on the forty-fourth annual session of the Illinois State Teachers' association, which opened this morning and continues over Thursday. The sessions of the association proper will be held in representative hall in the forenoon of each day. The afternoons will be devoted to sectional meetings, the association dividing up into high school, college principal, primary, child study, music, physical training, library, school board and county superintendents' sections.

Bullet for Unrequited Love.

St. Louis, Dec. 28.—Marcus Nassauar, a young man who lived in Clayton, a suburb of this city, Monday shot his sweetheart, Miss Katie Dosenbach, daughter of the ex-sheriff, and then blew out his own brains. For some time Nassauar had been paying his attentions to Miss Dosenbach, but she had repulsed him.

Li Hung Chang Out.

London, Dec. 28.—The Daily Chronicle asserts that the negotiations with Germany on behalf of the Chinese government are no longer being conducted by Li Hung Chang, but by Chang Yin Huan, who represented the Chinese emperor at the diamond jubilee to the queen.

A large tree laden with presents was the glittering cynosure of all juvenile eyes, and after a short program, combining music and recitations, had been presented, the distribution of these gifts made happy not only the juvenile but older hearts as well, there being a large number of presents on the tree, in addition to those for the scholars. LITTLE WORK DONE BY THE COUNCIL

MAY REVOKE A SALOON LICENSE.

Chief Hogan Complains of Alexander McLellan, and He Must Appear Before the Council at the Next Meeting and Make an Explanation Routine Business Transacted.

At last night's meeting of the common council the aldermen:

Decided to serve notice on Alex. McLellan to appear before the council and show cause why his license should not be revoked.
Authorized the school board to pay for building the addition to the Second ward school.
Refunded taxes paid by Capt. Pliny Norcross.
Paid bills, refunded illegal taxes, etc., etc.

Alderman Kothman was the only absentee. The clerk read the following communication from the school board:

GENTLEMEN:—I am directed by the board of education to notify you that the addition to the Adams school building is about completed and money is needed to pay on the same; that there is money in the general school fund that might be used at present and that with your permission, the board will pay for said addition out of the general school fund and call on the council later to replace the amount in the school fund as we may need it. By this arrangement we will save interest. Respectfully submitted. JOHN CUNNINGHAM.
Clerk of the Board of Education.

The matter was referred to the school committee and the committee recommendation that the proposition be accepted was adopted.

The grade and sidewalk line of South Second street was referred to the highway committee.

Chief of Police Hogan's communication regarding violations of the saloon ordinance was received. The chief recommended that the council require A. McLellan to appear and show cause why his license should not be revoked. The matter was referred to the license committee. The committee reported in favor of adopting the chief's suggestion and ordered the notice served on McLellan.

The finance committee recommended the payment of a list of bills, and they were ordered paid.

In the matter of Pliny Norcross' taxes the judiciary committee reported as follows: The judiciary committee having had under consideration the communication relative to taxes assessed upon parts of lot 174 in Smith, Bailey & Stone's addition, respectfully report: That in assessing land for taxation in said lot 174, no exception was made of that portion of said lot belonging to the electric light plant. That under the present laws of this state the property pertaining to said plant is exempt from taxation, and that in lieu of taxes the owner of such plant is to pay a percentage upon his gross earnings. That in our judgment the sum of $7,000 is a fair and equitable sum to be deducted from such assessment of land in said lot 174. And we therefore recommend that there be rebated to the said Pliny Norcross from his tax upon land assessed to him in said lot No. 174, the sum of $110.88, being the tax upon $7000, and that the city clerk draw an order upon the treasurer in favor of said Pliny Norcross, for said sum, payable from the general fund

F. E. FIFIELD,
GEO. M. MCKEY.
J. B. MCLEAN.

The report was adopted.

An order was ordered drawn to refund $15.20 to W. H. H. Macloon and $1.38 to G. G. Sutherland because of a mistake in a tax sale, and adjournment was then taken.

What the Little People Are Wearing Here and Abroad.

Plaids are enjoying an immense vogue among the little people and compose charming school and walking costumes for little girls. Soft, warm qualities and bright or rich colors are chosen, the trim-

ming being very slight, and no decoration except revers or plastron of velvet or cloth being often employed. The velvet or cloth is of a plain color, which will harmonize with the plaid. Buttons of an ornamental character or woolen fringe like the plaid are also used as trimming, as they are on golf capes and plaid jackets for women, much favored for severe service this season.

Long coats, fitted behind and straight in front, fastening with two rows of buttons, are to be much worn by little and half grown girls, as these garments are warm and afford better protection than the short jacket. Cloaking in plain colors—beige, mastic, suede, brown and hussar blue—is used for them; also plaid and mixed goods, the buttons being of horn or pearl. The coat may be quite plain or trimmed with stitching, straps, braid, brandebourgs or fur.

The loose sack, straight both behind and in front, is far less often seen for children, but nevertheless it is seen among the new models, and is therefore to be chronicled. Being loose the cold air gains access more easily and the sack is not so warm as the coat, but it is very easily put on and off, which is its chief recommendation.

The illustration which is given today shows a coat for a little child. It is of heavy white ribbed wool goods and is laid in a double box plait back and front. On the right of the front are placed four long pearl buttons, while on the left is a band of mongolie extending from collar to hem. The full sleeves are gathered into a fur cuff and have fur caps. The collar is also of fur.

WINTER MATERIALS.

Various Kinds of Goods to Be Worn During the Cold Season.

Many rich and elaborate materials are used this season, and the more elegant the goods are the simpler is usually the style of

make up. It always seems a pity to cut lavishly into exquisite fabrics, while to cover them with trimming is to gild refined gold.

Plain and ribbed velvet, thick, lustrous cloth, poplins of wool or silk and wool and velours are all fashionable materials employed for very elegant toilets. Sable, chinchilla, otter, blue fox, breitschwantz and astrakhan are employed—not only for wraps, but as a decoration for gowns of cloth or velvet.

Cloth or corduroy costumes with a blouse form excellent walking gowns for ordinary service. They are comfortable as well as fashionable, usually having an adjustable chemisette of light silk, which may be changed at pleasure, thus giving variety.

Clear gray corduroy trimmed with chinchilla makes a charming costume, especially when a touch of color is introduced. There may be a chemisette of pink or red silk, or the chemisette may be of white silk, a large bunch of violets being worn with it.

Plain or ribbed wools, cheviots and heavy rough or hairy goods are almost exclusive favorites for tailor made gowns. The preferred decorations are stitching, mohair braid and narrow lines of stitched satin.

The picture shows a reception gown having a skirt of violet velvet, slightly trailing, which opens over a tablier of gold embroidered tulle over mauve satin. The velvet bodice has a blouse front embroidered with gold, opening over a chemisette like the tablier. The large collar is of old point embroidered with gold. The close sleeves of mauve mousseline de soie are wrinkled and have old point frills at the wrist.

What Good Society Is.

"The very best society is not composed of gilt and glitter," writes Ruth Ashmore of "The Social Position of the Girl Who Works," in The Ladies' Home Journal. "It is that circle of pleasant people who meet and visit because they are interested in each other. It asks of each member that she bring a pleasant personality if she wishes to be in and of it. The society recognized by the newspapers consists merely of a few people, who, having more money than the rest of the world, are able to make themselves more conspicuous, and so are kept constantly before the public. But all over this great country, in every city, town or little village, there is to be found good society, and it rests with the working girl herself whether she is in or out of it. If she has the bad taste to prefer noisy people, whose idea of enjoyment is roughness, whose conception of conversation is to talk scandal, and who really have no reason for existing, then this girl will not only injure herself by her contact with such society, but she will injure every other girl who works. People are prone to judge a great regiment by one member of it. Therefore it behooveth the girl who works to go into the best society or to find her pleasures in her own home."

Baking Powders Analyzed

"Royal," a cream of tartar powder of superior purity and strength.

The following extracts from Certificates of analyses of the Royal Baking Powder, made from time to time, are very helpful to those who wish to be certain as to what baking powder to select in order to get a pure article, free from alum or any form of adulteration.

My tests show the Royal Baking Powder of very superior leavening power and a most commendable preparation. It is a cream of tartar powder of the highest purity, containing no alum, lime, ammonia, or any unwholesome material.

R. C. KEDZIE,
Professor Chemistry, Michigan Agricultural College,
Late State Analyst.

For a number of years past I have from time to time analyzed the Royal Baking Powder and have uniformly found it to be high in leavening power, and composed of pure ingredients.

H. A. WEBER,
Ohio State Analyst.

After examining samples of the leading brands of baking powder I have arrived at the conclusion that the Royal is superior in purity, leavening power and keeping qualities. It is a cream of tartar powder, entirely free from alum, lime, ammonia, and all deleterious ingredients.

GEORGE S. COX,
Wisconsin State Chemist.

I have submitted the Royal Baking Powder to careful chemical tests, and find it to be perfectly free from any substance in any way deleterious or injurious.

H. A. HUSTON,
Indiana State Chemist.

I have analyzed all the principal brands of baking powder sold in this State. Royal has the highest leavening power, and is composed of pure and wholesome ingredients. No other gave results so satisfactory.

FLOYD DAVIS,
Iowa State Chemist.

I have made a large number of analyses of Royal Baking Powder, and have found it to be an absolutely pure cream of tartar powder, entirely free from ammonia and all adulterations and impurities. In leavening power it is of the very highest.

CHARLES W. DREW,
Late Chemist Minn. Food and Dairy Commission.

I have analyzed samples of the Royal Baking Powder and find it invariably composed of wholesome ingredients and entirely free of adulteration or impurities of any sort.

Something is likely to occur before the close of this session of congress that will convince those who swallowed whole that story about Speaker Reed having become a dudish society man of their error. What differences would there be between state banks, under National supervision, and National banks? Practically none at all, if the supervision was actual; yet the project was endorsed by the Southern Bankers convention at Atlanta.

FRENCH CLOTH GOWN WITH LACE VEST FROM HARPER'S BAZAR

A dainty gown of cloth and velvet is in silver gray trimmed with violet. With this is a vest of deep-russet color guipure lace, which introduces another tone in the coloring. The velvet is put in the form of three bands, which encircle the hips, extend down both sides of the front, and curve away to pass around the bottom. Three similar bands are on the jacket waist. The cut of the gown is given in a tissue-paper pattern issued by Harper's Bazar, where it appears. With the gown is worn a small hat entirely composed of violets; the shape is round, and the hat is worn tilted down over the face. At the left side the violets are raised higher by a cluster of green leaves. The gray of the cloth must blend well with the velvet used for the trimming, or the general effect will not be satisfactory.

FIBROID TUMOR

Expelled by Lydia E. Pinkham's Vegetable Compound.

Interview With Mrs. B. A. Lombard.

I have reason to think that I would not be here now if it had not been for Lydia E. Pinkham's Vegetable Compound. It cured me of a fibroid tumor in my womb.

Doctors could do nothing for me, and they could not cure me at the hospital. I will tell you about it:

I had been in my usual health, but had worked quite hard. When my monthly period came on, I flowed very badly. The doctor gave me medicine, but it did me no good. He said the flow must be stopped if possible, and he must find the cause of my trouble.

Upon examination, he found there was a Fibroid Tumor in my womb, and gave me treatment without any benefit whatever. About that time a lady called on me, and recommended Lydia E. Pinkham's Vegetable Compound, said she owed her life to it. I said I would try it, and did. Soon after the flow became more natural and regular. I still continued taking the Compound for some time. Then the doctor made an examination again, and found everything all right. The tumor had passed away and that dull ache was gone.—MRS. B. A. LOMBARD, Box 71, Westdale, Mass.

TRAIN IS WRECKED AND MANY INJURED

"FOND DU LAC PASSENGER" IN SMASHUP.

Dashed Into a String of Coal Cars at Fond du Lac, and One Man Who Was Hurt, May Die—A Clinton Man Among the Victims—Misplaced Switch Responsible.

The "Fond du Lac passenger" which left Janesville at noon yesterday, met with a mash up at Fond du Lac last evening. An open switch in the Chicago & Northwe tern yards caused the wreck, in which half a dozen persons received serious injuries, one of whom will probably die. Those most seriously hurt were:

A. K. South, Chicago expressman, internally injured and right shoulder dislocated.

F. J. Rundt, Waukegan, Ill., baggageman, right arm seriously crushed and bruised.

Ray I. Smith, Clinton Junction, Wis., postal clerk, cut on top of right shoulder.

William Magnussen, Fond du Lac, traveling salesman, hip bruised.

Mrs. D. Y. Zimmerman, Fond du Lac, cut on head and face.

The injured were cared for at the office of the company's local physician, Dr. L. A. Bishop.

The train was the Chicago, Janesville & Fond du Lac passenger due at Fond du Lac at 4:30 p. m. It was speeding along at the rate of about twenty miles an hour.

Ran Into Coal Cars.

When rounding a curve near the coal chutes it left the main line and dashed into a siding. The first two cars on the siding were loaded with coal, the third was on empty box car and the others ahead were also loaded with coal. The empty car was telescoped, which fact alone saved the passenger cars from being piled in a heap.

The baggageman says that the stop was so sudden and the momentum of the train so great that the trunks in the rear end of his car were lifted and dashed against the front end, being thrown a distance of fifty feet.

Nearly all of the passengers were thrown over two or three seats, and many received painful scratches and bruises.

Janesville Crew In Charge.

A Janesville crew was in charge of the train. Eengineer John Crowley of this city, was at the throttle, and John Morris of this city, was his fireman. Both were painfully bruised when the shock came, but neither was seriously hurt.

Conductor Stewart of Chicago, was in charge of the train.

The express messenger was most seriously injured.

Small C. M. & St. P. Wreck.

A freight train on the Chicago, Milwaukee & St. Paul road broke in two while between Juda and Monroe yesterday afternoon. Several cars were demolished and the 4:40 passenger was delayed two hours and a half in consequence. No one was injured.

FIRE AT PETER DOLAN'S HOME

The roof to the kitchen at the home of Peter Dolan near the Pleasant street railway crossing caught fire shortly after 7 o'clock this morning and an alarm was turned in from box 151. It was necessary to cut holes in the roof and use considerable water to soak out the blaze. The loss is largely confined to damage done in that way. It will aggregate about $125. The fire caught from a stove pipe.

FRACTURED HIS RIBS AND FROZE HIS FEET

THEN PNEUMONIA SWOOPED DOWN ON DR. SCHMITT.

First He Fell Through a Trap Door—Jack Frost Crippled Him on the Way Home, and the Chill Affected His Lungs—His Case Is Considered Critical.

Fractured ribs, frozen feet and pneumonia are all combined in Dr. A. Schmitt's case.

Dr. Schmitt fell through a trap door to begin with. That hurt his chest and jammed his ribs.

His feet froze while he was being carried home. He was chilled so thoroughly that pneumonia set in and he had all three afflictions to temper the joy of his Christmas.

Dr. Schmit lives in Sharon but is known to many Rock county people, as he has a large country practice. He was preparing medicine for one of his patients four miles from Sharon and went into the kitchen to get some water. The trap door to the cellar was open and he went to the bottom like a bag of sand. He is a man over six feet in height and weighing 225 pounds, so the force of his fall may be imagined.

When the doctor was lifted out it was found that he had suffered serious injuries about the chest and that indications pointed to fractured ribs. He was wrapped up and taken back to his office as fast as possible but the four mile drive proved too much for him. His feet were frozen and he was so chilled that pneumonia set in. Dr. W. H. Palmer, of this city, who was called in consultation found him suffering much pain from his injuries his illness being correspondingly aggravated. A letter from Sharon today announced that there had been no change in condition.

KEEP ASHES OFF THE STREET

Parties Who Violote Provisions of the Charter Will Be Arrested.

TO ALL CONCERNED—Complaint has come to me from all quarters of the city that people are throwing their ashes in the street. That this is true in many instances I am well aware. The city charter provides a penalty for this offense and I shall instruct the city marshal to see that the law on this point is strictly enforced. Those parties who have thrown ashes in the street will be given ten days in which to remove the same. The street commissioner will then make the rounds of the city and a report will be made of those who have not complied with the law, and they will be prosecuted as the law directs.

JOHN THOROUGHGOOD,
Mayor.

CHRISTMAS PICTURES

I was a guest for an hour in a beautiful home,
And a group of children fair,
Let me watch them fasten the elegant gifts
To a Christmas tree that was standing there.

Sparkling eyes and faces so bright
Impatiently wait for the dawn
Of the glorious Christmas almost in sight,
The magic day that Christ was born.

Not content with all these splendid gifts
That the tree held with such grace,
They had hung their stockings all in a row
'Neath the dear old chimney place.

Old and young wore the brighest smile,
Happiness made their hearts so light,
I waited 'till the picture was complete,
And with the old time wish I bade good night.

As they opend the door of another home,
And bade me enter in,
I saw a dear little child in the room,
Her face was white and thin.

I listened and I heard her say
How can I my presents find?
I looked again, alas, alas,
This darling child was blind.

And I heard the patient mamma say,
"My little girl has lost her sight,
But I am thankful still today;
She is all I have to make life bright.

I saw in a lowly, humble home
A room all gloomy and bare;
No Christmas tree, no stockings hung,
No presents were waiting there;

But a white-faced mother bending—yet
Over an empty cradle small;
Her tears had made the pillows wet—
God had taken her darling, her all.

Cristmas brings both joy and woe;
How little any of us can know
What it will bring for us this year.
It seems to me that at this time

All hearts should beat in happy line;
Yet even now I hear the bells toll—
God has taken some dear name off life's roll.
Some hearts are almost broken today;
'Tis awful hard for them to say
"I wish you a merry Christmas, dear,
And pray you may see a happy New Year."

They arrived this noon and were driven to the home of Rev. Robert C. Denison, of the Congregational church where a knot that will test even the justly celebrated Chicago divorce courts was tied.

Then Mr. and Mrs. Potter hastened back to the C. & N. W. depot, and left for Chicago on the next train.

This is the third Chicago couple wedded here within a few days. The first couple were wedded by Rev. A. H. Barrington, and secrecy was imposed. As yet no one has been able to find out who the pair were.

At first I believed, and still believe, that it is a crime not to make known to the world a discovery which will cure these conditions heretofore held to be incurable. Aurists have exhausted their skill in treating the drum and Eustachian tube for deafness with supreme failure. NO PLAN, NO METHOD, has ever before been adopted capable of carrying treatment into the seat of the disease which is located on mucous membrane that covers the bones of the middle ear and other organs of hearing. OVER EIGHT HUNDRED TREATMENTS given since Sept. 1st without one failure to benefit or cure. We publish no names but you can copy them from our case book and interview the parties WE ARE NOT AND WILL NOT BE RESPONSIBLE for parties who do not follow instructions, but guarantee every case that does. A FAVORITE POEM.

I wandered lonely as a cloud
That floats on high o'er vales and hills,
When all at once I saw a crowd,
A host of golden daffodils,
Beside the lake, beneath the trees,
Fluttering and dancing in the breeze.

Continuous as the stars that shine
And twinkle on the milky way
They stretched in never ending line
Along the margin of a bay.
Ten thousand saw I at a glance,
Tossing their heads in sprightly dance.

The waves beside them danced, but they
Outdid the sparkling waves in glee.
A poet could not but be gay
In such a jocund company.
I gazed and gazed, but little thought
What wealth that show to me had brought.

For often when on my couch I lie
In vacant or in pensive mood
They flash upon that inward eye
Which is the bliss of solitude,
And then my heart with pleasure fills
And dances with the daffodils.

A CHANGED DEVIL.

Babe Espinosa was the only daughter of Gavina Espinosa, whose wife the saints had called early, and her place had been supplied by a woman whom Babe had been taught to call Aunt Tinto. The Espinosas kept a small Mexican restaurant on Santa Lucia street, where tortillas, enchiladas, tamales, red wine and other hot stuffs were attractions. Babe had been brought up in the restaurant and in the street—in the gutter, if that was out of Aunt Tinto's way—though she had a faint remembrance of a yard around an old adobe, where there were myrtle with big blue blossoms and broken borders of gaudy flowers, and thinking of the adobe she thought of the myrtle, and thinking of the myrtle she saw it on a grave in a place where there were many thin, wooden crosses, some of them always leaning over with a promise to join those that had lain down like the sleepers. She had been christened Maria, but after some years and some slips she had repudiated the name as too commonplace for her and had assumed the name of her innocence because of the travesty it was. "Marias are thicker than virgins," said Babe, whereat her followers laughed. These were all young men. Women did not like Babe and she did not like women.

Babe was wiry, square shouldered and slim waisted. She attracted attention wherever she went. Everything she did was done with this in the vista, and she would have succeeded had she only posed as propriety. The conformation of her supraorbital region caused the other Marias to accuse her of the evil eye. Her hair, worn old style, parted in the middle and carried down over her ears, was black and only less coarse than the mane of a mustang, and her hair and eyes would have been observed in any aggregation.

Babe had a familiar, one Vico Rottanzi, the hunchback of the Pocket. The Pocket was a haunt of ill repute, a cluster of old, low tenements in the center of a block where there were houses facing the sidewalk in the regulation civic way. Vico was tall for a hunchback, owing to his very long legs. Babe was so strong that she could put a hand under either hump and lift Vico about, while his long legs dangled like a rag doll's.

Through all the streets and alleys of the town the odd looking pair went at will and at all hours. "The devil and the devil's own," Babe said of them, and the Marias said, spite of her sex, the devil was Babe.

Often they passed old Mateo Tiveros and his tamale stand. Sometimes they flouted the old man. Sometimes they wheedled him out of a tamale by promises of sweet yerba santa, sometimes secured it by mere bold banter, but one night late, when there was no moon and old Mateo's red lantern, low and smoky, cast a light that would hardly have done for a photographer's darkroom and Babe and Vico were bold with bad wine, a whim struck Babe to upset old Mateo and his outfit.

A whisper to Vico won him to the scheme, and in a few twinklings the lantern oil had spread itself a la mayonnaise upon the outer husks of the few tamales remaining in the steamer. To Babe's surprise Vico lay in the mayonnaise, and she found the night air cool upon her spine, for old Mateo had disposed of Vico with a single left hander and with a stroke of a sharp knife had ripped Babe's clothing from neck to waist. Babe wet her dress skirt at the fountain, tore off Vico's collar, opened his shirt and mopped his face, neck and breast till consciousness returned. Then she took off his coat, threw it around her shoulders, buttoned one button, got Vico on his feet and half led, half carried him home and put him to bed.

She thought of smelling salts for Vico and began to rummage for a green bottle with an oroide top that had once held some. Not finding it in one place, she looked in another, when, feeling something unusual in the old zinc trunk, she drew it forth and shuddered till the split clothing slipped down on her tawny shoulders as she saw a wooden cross with an ivory figure in fixed contortion upon it. Then she remembered that once upon a time she had stood by an old chest when her father found the crucifix, and he, too, had trembled.

"Who is it?" she had asked.

"One Jesu," her father had said. "He was your grandmother's. He is a dead man, and the dead are as earth and air and water. I will have nothing of this Jesus."

He threw the Jesus in the strong box, then heaped clothing upon it and jumped in and stamped upon it.

Why had he not thrown it away?

Another day she had meant to do so, for she smothered when she thought of that yellow, hurt looking man, bleeding and nailed and trampled under the clothing in the tight box. She had gone with creeping flesh and got him out.

Why had she not thrown him away? Why had she forgotten him? Strange it seemed to her, that moan of Vico's at that moment, "Jesus, mercy—my Jesus, mercy—my poor head."

Her grandmother had kept Jesus by her. Had he done something for her? Would he do something for Vico? She could not bear to look at him even in the dim light, but she laid him on Vico's breast and took Vico's hands and put them upon him.

Babe could not breathe. Her face burned. Her bare breast burned. She felt her way to the back porch, heavily overhung by flowering bean and balsam vines, but the night air did not cool her, though her clothing had slipped off her arms and fallen down from her belt, and her wet skirts clung to her limbs.

Her father sat there in a low, wide rocker—her father, stupid with heavy food and sour wine—and another form was coming up the black adobe walk. It was not mist only nor shadow nor cloud, yet Babe knew not what else to call it, and it came to the railing and stood without and spoke to him, her father, "The step is fallen, husband, and the porch is falling with the thick vine, and my child is fallen."

"What business is it of yours?" replied Gavina Espinosa with sullen bravado. Then he burst out wrathfully: "By God, in the course of nature you have no right to be here. You are dead and useless."

"Dead? I am not dead," said the mist. "Death frees us. Death rests us. Death soothes pain, but I am bond and weary and I suffer."

"Anyhow, your grave is over there, flat under the myrtle."

"Ah," said the mist, "I did not know what I now perceive. I am dead, praised be God, and he is God, and now that you have cast me out and told me there is no bond between you and me I am indeed free and my grave is over there, but not flat under the myrtle. Don't you remember I asked you not to pat it down? And it has never fallen. Lift the myrtle and you will see. I go to my grave. The earth is calm and soft and kindly. Nature has made it so. Tell my daughter that I went to my grave."

In the gray of morning Babe came to herself in the old porch. She looked for her father. He was not there, neither was the wide rocker. Had they really been there? Babe lay and thought. When she got up, she was a changed woman.

She bathed Vico's face and hands. He could not rise. She brought breakfast for him and served it with the only pure womanly tenderness that had ever been spontaneous with her. Vico ate and afterward slept. She mothered him all day. He did not understand Babe's new whim. Late in the afternoon he rose and dressed, wondering what her evening mood would be.

She would not let him go till he had eaten food brought with her new grace. They ate together, and when he felt new again and wholly well fed and comfortable he put his arms around Babe and kissed her. She put her arms around him and kissed him, too, as a good woman might have done.

"I am going to be good, Vico," she said. Vico had felt her strength when she was bad to him, and he was not ill pleased. "Let's both be good, Vico," she went on. "Let's go to the priest and be married."

Vico was so much astounded that he took her arms from around him. He looked at her. Yes, she meant it. Vico was as much an inheritance as any one of his traits. He was the product of an ancestry of inconstant men.

Vico laughed.

That the accustomed anger did not blaze from her eyes made him laugh consumedly, and when a tear stole down her cheek the situation became amusing beyond all things.

Vico laughed.

The echoes of his evil mirth came back to the grieving woman as he went down the street to tell his boon companions of Babe's latest madness.

How Vico laughed!—A. Kalfus Spero in Argonaut.

New Baking Powder Law.

In view of the new baking powder law, which takes effect January 1, an advertisement published in our columns today is worth looking up and reading. It contains a series of reports from the present or late state analysts of Wisconsin, and every neighboring state, showing that the well known and popular Royal Baking Powder is not only a pure cream of tartar powder, free from alumn and every form of adulteration, but superior to all others in leavening strength, and therefore the best for every use. To receive such an official recognition the merits of the Royal must indeed be eminent. Consumers of baking powder will be glad to receive this timely advice upon a matter of such general importance.

ONE IN EVERY FOUR

One Person in Every Four Suffers From Piles

About one person on every four suffers from some form of rectal disease. The most common and anoying is itching piles, indicated by warmth, slight moisture and intense, uncontrollable itching in the parts affected.

The usual treatment has been some simple ointment or salve which sometimes give temporary relief, but nothing like a permanent cure can be expected from such superficial treatment.

The only permanent cure for itching piles yet discovered is the Pyramid Pile Cure, not only for itching piles, but for every other form of piles, blind, bleeding or protruding. The first application gives instant relief and the continued use for a short time causes a permanent removal of the tumors or the small parasites which cause the intense itching and discomfort of itching piles.

Many physicians for a long time supposed that the remarkable relief afforded by the Pyramid Pile Cure was because it was supposed to contain cocaine, opium or similar drugs, but such is not the case. A recent careful analysis of the remedy showed it to be absolutely free from any cocaine, opium or in fact any poisonous, injurious drugs whatever. Sold by druggists at 50 cents per package.

Send to Pyramid Co., Marshall, Mich., for free book on cause and cure of piles.

Good Printing...

Is like good painting—it demands and obtains a second glance. The second glance leads to thought about and knowledge of the thing portrayed, and then on to the artist or advertiser.

The kind of printing as well as the kind of painting that it pays to do and to have done is that which obtains this "second glance." Plenty of the other kind!

We are PRINTERS. Our work obtains glances of admiration, and thus leads on to the end desired. We don't do the "other kind." Put our job room to the test.

"If a woman reads

Pearline 'ads,' and acts upon them, she'll have plenty of time to read everything else in the paper." That is what a woman writes to us, and she's a woman who ought to know. How large a part of your time is spent in getting things clean? Haven't you something better that you'd like to do if you had the time for it? Time is one of the things that Pearline saves.
